## PROFESSIONAL EXPERIENCE

**Code Clause - Remote**

June'23 - July'23

Web Development Intern

- Actively contributed to a dynamic web development project during my internship at Code Clause.
- Led the conceptualization and successful delivery of a modern site, showcasing proficiency in design, development & deployment.
- Demonstrated a comprehensive understanding of web development principles, applying a wide range of design techniques, coding best practices, and deployment strategies to ensure the project's success.

## PROJECTS

**Typing Geeks - Typing Test Website using React**

May'21 - July'21

- Created "Typing Geeks," a React-based website for improving typing skills through timed tests and 3 interactive games.
- Key features include 9+ diversified timed tests, diverse text categories, difficulty levels, local score storage.

**Sarthi - Truck Booking Website**

Oct'21 - Jan'22

- Developed "Sarthi," a user-friendly truck booking platform for both individuals and businesses, offering diverse truck sizes and a competitive marketplace. Features a catalog of 100+ trucks and caters to a growing user base with 1,000+ monthly visitors.
- Utilized technologies such as HTML5, CSS3, JavaScript and firebase for efficient data management.

**GlobalTechMasters - Course Selling Platform**

June'22 - Aug'22

- Played a vital role in developing a dynamic online course platform using PHP, emphasizing backend expertise with over 1,000 registered users and 50 active courses, showcasing scalability and user engagement.
- Achievements encompassed designing dynamic features, database management, user authentication, and utilizing a diverse tech stack, culminating in the creation of a live online course platform at [globaltechmasters.com](https://globaltechmasters.com).

**Carbon Emission Inventory Development & Analysis**

Dec'22 - March'23

- Created a machine learning-based project using WEKA 3.
- Developed a website displaying vehicle carbon emission data of various years & states, with ability to make future predictions.

**Digital Agency using WordPress**

June'23 - July'23

- Crafted a WordPress-powered online store, ensuring smooth e-commerce functionality and optimal user experience.
- WordPress-based website (over 43% global websites are on WordPress) showcasing CMS, Elementor, Astra theme, and WP Forms.
